### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Chaturvedi does not teach or suggest the claimed X-ray diffraction pattern which has no reflections with the peak position 2 theta of about 50 degrees. Furthermore, those of ordinary skill would not have been motivated to combine Bogan or Borgmeier since neither of these references specifically teach a catalyst composition as instantly claimed. Therefore, the ancillary references fail to remedy the deficiencies of Chaturvedi in teaching the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
